

# TERMS OF USE

Thanks for purchasing my clipart! Hope you'll love creating with them :)

## KEY POINTS

### COMMERCIAL USE ON DIGITAL PRODUCTS

When you purchase my clipart, you can create and sell digital resources without any limits on quantity. (For selling physical copies of resources, see next page..)

### NOT TRANSFERABLE

The license is for one user only, and cannot be shared or transferred to another individual.

### CREDIT TO MY STORE

Please include my credit button in the Credits Page of your resource with a link back to my store:

<https://www.teacherspayteachers.com/Store/Bunny-On-A-Cloud>

### NO SHARING or RESELLING

Please do not share or distribute my clipart in any way. If you purchased/obtained my clipart from anywhere else other than my store on TpT, please contact me at [bunnyonacloud@gmail.com](mailto:bunnyonacloud@gmail.com)

### AS PART OF YOUR CREATION

Clipart may not be made into a product that only has images, but instead used as a design element or visual reference within your original educational resources/body of work that includes purpose and instruction.

# SPECIFIC USES

## PDFs

You can create and sell resources in PDF form e.g. worksheets, centers, posters, task cards, mini books, flip charts etc. The PDFs have to be flattened and secured to protect both your work and mine.

## TpT EASEL, BOOM CARDS™ AND SEESAW™

You can use my clipart as interactive moveable pieces on secured platforms like TpT Easel, Boom Cards™ and Seesaw™ without any extended licenses.

## GOOGLE AND POWERPOINT

If you use my clipart as interactive moveable pieces on google slides/forms/sheets/jam etc. or powerpoint, you need to get an Extended License for Moveable Pieces from my store on TpT. If you are not using my clipart as moveable pieces, they need to be flattened and secured.

## EDUCATIONAL VIDEO

You can use my clipart in creating educational videos without any extended licenses. Credit back to my TpT store is required either somewhere in the video or in the video description where you post/host the video.

## COLORING PAGES

You cannot create coloring pages as a standalone resources with my clipart, though you can use my clipart to create coloring pages that include some educational text, and include it as one of the components in your themed resources.

## PHYSICAL PRODUCTS

You can create physical products like stickers, stationaries, T-shirts, etc. for your own home, students, or classroom without any extended license if they are not for sale. If you'd like to sell physical products that you created with my clipart, you can get my Extended License For Physical Products.

## APPS

If you'd like to create educational apps with my clipart, you can find my Extended License For A Single App in my TpT store.

## STORE LOGOS AND TpT STORE BANNERS

You can use my clipart to create logos and banners for your own TpT store, but not if you happen to sell your own clipart in the same store.

## SOCIAL MEDIA

You can use my clipart to create images and videos for your social media channels that promote your TpT store and products, but not if you happen to sell your own clipart in the same store.

## BLOG

If you have a blog, you can use my clipart to create the featured image of the blog post, though it has to include other visual elements like your product image, blog title, etc. They cannot be used as standalone images on your blog or website.

# PERMITTED EDITS

## COLORS

Adding your own colors to the black and white versions of my clipart is allowed.

## CROPPING

You can choose to use only part of the clipart, e.g. top half of the body, but altering the actual lines of my clipart is not allowed.

## LAYERING

You can put one clipart on top of the other, e.g. putting a shape over part of an animal friend to make it look like the animal friend is holding the shape.

If you have any questions, you can email me at  
[bunnyonacloud@gmail.com](mailto:bunnyonacloud@gmail.com).

Thanks loads! :)
